FLAT CHAIN FEEDER SYSTEM

DRIVE HOPPERS

1 way, 1 line

1 way, 2 line

- Available in suspended or floor models
- Complete line of one, two, three, and four line system for all your need
- Solid all-welded heavy gauge steel construction
- Durable enamel coated finish on all models
- Adjustable feed gate to control feed depth in trough
- Remix wheel (on one and two line models) return surplus feed into hopper,
 - mixing with fresh feed for a uniform ration; also eliminates feed build-up at return to hopper
- All drive hoppers require standard farm duty motors.
 - Motors not included, can be ordered separately
- High quality gear reducers
- Long lasting, heavy duty, reversible gear sprockets
- Shear pin in each drive sprocket prevents major damage if a foreign object jams the feed system

1 way, 2 line with adjustable leg

CORNER ASSEMBLY

- Corner rail and fluted wheel design assures smooth chain movement through the corner assembly. Uniform feed delivery with no binding or jamming
- Corner wheel has oil impregnated brass bushing to reduce wear
 - Hardened base plate and corner hold-down rail for longer life

GRILLS

4 longitudinal wires

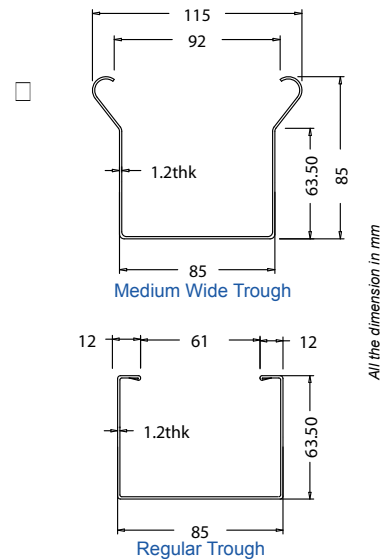

5 longitudinal wires

6 longitudinal wires

- All available in 5 foot length with variety of grill spacing.
- Special order - customize grill spacings and length to meet your requirement.
- Precision welded heavy gauge wire for strength and durability
- Anti-roost designs to reduce competition among birds and reduce feed loss from billing and scratching
- Easy snap installation onto trough
